

At STAMM Investments Limited, our staff work very hard at keeping our lawns, gardens and other areas clean. In the winter time, many people litter and once the snow melts the messes are clearly visible. The biggest mess is from cigarette butts and animal waste.

Again, we ask that all residents properly dispose of trash and cigarette butts, and to always clean up after your pets, even in the winter.

Please do not 'toss' cigarette butts from a balcony or as you walk along the grounds; dispose of cigarette butts properly. Don't forget to clean up after your pet each and every time.

Together we can keep the property clean and nice for all.
